

Notice of Strong Winds for Mariners

The Kenya Maritime Authority (KMA) notifies all mariners, fisher folk, speedboat operators, pleasure crafts, passengers and the general public that strong winds and high waves are expected along the coastal waters until Wednesday 8th, 2019. KMA advises all to take extra caution when sailing and avoid venturing into the open sea during this period as the strong winds, waves and reduced visibility may cause loss of life and property through collision and capsizing of vessels at sea.

In case of any emergencies at sea or incidences, the public can contact the Authority's Regional Maritime Rescue Coordination Centre (RMRCC) through its emergency lines: 0721-368313 OR 0737-719414.
